

MIKHAELLA E. DE CASTRO

decastromikhaella@gmail.com | 09995366143

Zone 1, Cambio, San Miguel, Bulacan

PROFESSIONAL SUMMARY

Dedicated and detail-oriented Bachelor of Science in Information Technology graduate specializing in Web Systems Technology, with experience in AI/LLM data operations and training data development. Skilled in web development, academic research, system documentation, data annotation, and customer service, with strong attention to detail and accuracy. Experienced in handling technical tasks, troubleshooting, system maintenance, administrative documentation, and AI-related data work, including dataset preparation, prompt evaluation, and linguistic quality review of content. Capable of creating functional web-based projects, working with structured systems, and handling customer inquiries professionally. Adaptable and organized, with the ability to work both independently and collaboratively with cross-functional teams. Continuously improving technical skills while applying knowledge in software development, AI data operations, and customer service.

EDUCATION

Nueva Ecija University of Science and Technology **2021 - 2025**

Bachelor of Science in Information Technology

Web Systems Technology Specialization, GPA: 1.51 With Academic Distinction

San Miguel National High School **2019 - 2020**

TVL - ICT Strand, With Honors

EXPERIENCES

Innodata Knowledge Services, Inc. (Remote) **JAN 2026 - JUL 2026**

Analyst - AI/LLM Practice

- Created and developed training datasets for AI models to improve accuracy, fluency, coherence, and overall response quality.
- Performed data annotation and labeling across multimodal formats (text, image, audio, and video).
- Performed data annotation to help AI models align with human values, ensuring outputs are ethical and contextually appropriate.
- Applied prompt engineering techniques to refine and optimize AI responses.
- Analyze and improve the grammar, syntax, and sentence structure of both expert-generated training data and AI model-generated text to ensure it adheres to linguistic rules and conventions.
- Conducted conversational evaluations of AI voice models using varied prompts, tones, and emotional expressions to assess voice quality, emotional delivery, responsiveness, and overall naturalness.
- Performed quality assurance (QA) reviews of annotated data to ensure accuracy, consistency, and compliance with project guidelines.
- Identified annotation errors, provided constructive feedback, and helped maintain high-quality datasets.
- Collaborated with cross-functional teams to resolve annotation issues, improve workflows, and maintain project quality standards.

NEECO II - AREA 2 (Electric Cooperative) **JAN 2025 - APRIL 2025**

Intern - Office of the General Manager

- Organized and maintained company documents and records, ensuring accurate filing, retrieval, and documentation.
- Processed and verified document requests while updating internal systems and maintaining data accuracy.
- Prepared reports, maintained records, and handled confidential information in accordance with company standards.
- Assisted with IT operations and troubleshooting to support smooth and efficient daily workflows.
- Collaborated with IT staff on system maintenance, documentation, and improvements to internal processes and website usability.

Concentrix **NOV 2021 - DEC 2021**

Advisor 1, Email Support (Remote, Part Time)

- Reviewed and responded to customer inquiries via Salesforce, adhering to strict company guidelines.
- Verified Spotify account ownership by reviewing user-submitted information and cross-checking with internal records and social media profiles.
- Identified and escalated complex issues while maintaining quality and timely resolutions.
- Delivered professional, clear, and accurate communication in a high-volume support environment.

CERTIFICATION AND SEMINARS:

Asia Open RAN Academy: Introduction to Cloud Computing **August 24, 2024**

- Gained practical knowledge of cloud computing service models (IaaS, PaaS, SaaS), scalability, flexibility, cost-efficiency, and data storage strategies for modern web systems.

DICT: Designing with Figma: From Concept to Creation **October 08, 2024**

- Learned to create UI/UX designs, prototypes, and interactive interfaces, transforming concepts into fully designed digital solutions.

CERTIPORT - IT Specialist (HTML and CSS) **November 22, 2024**

- Demonstrates the ability to structure webpages using HTML elements and create and apply styles using CSS.

TESDA: Microsoft Artificial Intelligence Course (Azure AI Fundamentals) **July 31, 2025**

- Acquired foundational knowledge and practical skills in AI, Azure AI services, and machine learning.

Cisco Networking Academy: Data Analytics Essentials **November 19, 2025**

- Covers data collection, visualization, and interpretation using analytical tools and techniques.

Cisco Networking Academy: Introduction to Modern AI **April 24, 2025**

- Learn to use AI in daily life, craft effective chatbot prompts, and use computer vision and machine translation.

SKILLS

Technical Skills: AI/LLM, AI, LLM, QUALITY ASSURANCE, QA, DATA ANNOTATION, AI ANNOTATION, ANNOTATOR, CSS, PHP, Javascript, Java, Python, C++, Laravel, MySQL, Angular, Ionic, React, HTML

Software: Microsoft Office, Google Workspace, Figma, Canva, Wordpress, VSCode

Other: Troubleshooting, Technical Support, UI/UX Design, Documentation, Research
